## **Seiler Named Artist-In-Residence by The Arts Partnership**

Scott Seiler, a fine art landscape photographer from Fargo, ND has been named an Artist-In-Residence by The Arts Partnership. Seiler will have his photographs on display at Myriad Mobile, a mobile app development company based in Fargo, ND from February 23 through June 23, 2016.

Seiler's Exhibit, "Rural Perspectives—Landscapes and Architecture," captures the often stark, occasionally surprising beauty of this horizontal landscape in which we live.

The landscapes include abandoned farmsteads or churches, poignant reminders of the rural lifestyle of a sometime recent past. Seiler's interests in landscape and architecture stem from a childhood on the rugged, unspoiled prairie of western North Dakota. As a child, he roamed his family's ranch, learning to appreciate the beauty of the prairie and the importance of quiet observation.

Members of the community at large are invited to view Seiler's work, which is also for purchase, at Myriad Mobile in the Meadowlark Building (503 7<sup>th</sup> St. N., Fargo, ND) during regular business hours throughout the duration of the exhibit.

Seiler is currently a marketing and communications strategist in Fargo, ND and a partner at Gallery 4, Ltd. Visit and learn more about his work on Facebook, [sseiler@cableone.net](https://www.facebook.com/sseiler@cableone.net), or [www.ScottSeiler.net](http://www.ScottSeiler.net).
